

## Getting ready for your new **Learning Management System (LMS)**

Enhancing AppSec Training with advanced features and optional additional content

When you renew your Kontra subscription, your learning instance will smoothly transition to Security Compass' Learning Management System. You will enjoy the same LMS features while gaining additional tools and the option to purchase courses from Security Compass' Application Security Training Curriculum.

### **User Management**

Create users and manage their information, roles, permissions, and group them into teams. Access certificates, archive completion for annual retraining, and more.

### **Course Management**

Enroll learners to their primary courses and display a catalog for learners to pick their own training from the library.

### Reporting and Notifications

Track training completion with default and custom data visualizations, reports and APIs. Schedule reminder notifications and automated email reports.

### Enhanced Learning Experience

Enable optional Gamification features to incentivize training material completion with badges and leaderboards.

### Potential Curriculum Expansion

Gain the ability to purchase additional courses from Security Compass' courses to expand your AppSec Training curriculum.

## Frequently Asked Questions

### How will the migration happen?

Upon renewal of your subscription:

Security Compass will send you a report containing your current user, historical training completion data and learner certificates stored in Kontra LMS.

Access to Kontra LMS and historical data will be permanently discontinued.

Security Compass' Learning Management System (LMS) User Guides will be provided for familiarizing yourself with the learner and administrative functionalities.

All users, permissions, teams and primary courses will automatically transfer to Security Compass' LMS, mirroring the setup from Kontra LMS. You can update this data directly in the new LMS as needed.

All users will access Kontra training materials via this new platform moving forward.

### What if I need help with finding information or using a feature in this new LMS ?

Please refer to our User Guides or contact Security Compass' LMS Administrator at [support@securitycompass.com](mailto:support@securitycompass.com)
